All prices expressed in U.S.\$/MMBTU and based on indicative data obtained from traders, exchanges and deals provided directly by energy companies. "Fixed" prices (page 1) represent the indicative forward prices of gas delivered for each reference period at the various locations/hubs. "Basis" prices (page 2) represent the differential, for each reference period, between the Henry Hub and various locations/hubs. For more information, please call Dexter Steis at 703-318-8848.
