

Product Suite: NGI's Forward Look

NGI's Forward Look forward curves deliver robust natural gas futures pricing and market coverage.

Why Subscribe:

- Daily forward curves expressed as both fixed prices and basis differentials to the Henry Hub
- Curves going out 10 years at 70+ locations
- Forward curves published as both individual months & seasonal strips
- Database of historical forward curves back to 2012
- Weekly forward markets analysis and insights

How to Access:

- NGI Data Services REST API - full database of the up to 119 "out" months historically
- Automatic Data Sync to Excel
- Web tools for accessing datafeed & historical prompt month data for each location
- NGI Delivery Platform Partners
